Control 1 & 2

Controls one and two low power appliances like lights, tube, fan, television etc.

Connectivity
802.11 b/g/n Wi-Fi

Dimension (L x W x H)
51mm x 51mm x 22mm

Operating Voltage
85VAC-265VAC, 47-63Hz

Number of Switches
1 & 2 (Dimmable)

Maximum Load (per switch)
200W Resistive Load
150VA Inductive Load

Operating Temperature
Operation 0°C to +70°C

Power Consumption
Less than 1W

Control5

Controls upto five low power appliances like lights, tube, fan, television, av systems etc.

Connectivity
802.11 b/g/n Wi-Fi

Dimension (L x W x H)
85mm x 57mm x 22mm

Operating Voltage
85VAC–265VAC, 47-63Hz

Number of Switches
Five (Dimmable)

Maximum Load (per switch)
200W Resistive Load
150VA Inductive Load

Operating Temperature
Operation 0°C to +70°C

Power Consumption
Less than 1W

Cube¹

Controls one high power appliance like air conditioner, geyser, motor pump, oven etc.

Connectivity
802.11 b/g/n Wi-Fi

Dimension (L x W x H)
51mm x 51mm x 22mm

Operating Voltage
85VAC-265VAC, 47-63Hz

Number of Switches
1 (100A High Inrush)

Maximum Load (per switch)
4000W Resistive Load

Operating Temperature
Operation 0°C to +70°C

Power Consumption
Less than 1W

Trigger²

Controls one motorized
gate, rolling shutter,
curtains etc.

Connectivity
802.11 b/g/n Wi-Fi

Dimension (L x W x H)
51mm x 51mm x 22mm

Operating Voltage
85VAC-265VAC, 47-63Hz

Number of Controls
2 (Open / Close)

Max. Switching Voltage
30VCD, 250VAC

Max. Switching Current
10A

Operating Temperature
Operation 0°C to +70°C

Power Consumption
Less than 1W
